## FEATURES

**Mobility.** Satellite containers are designed to be easily lifted off machine for use in remote service areas.

**Ready-to-Brew Light.** Light turns green when machine is at perfect brewing temperature.

**Locking Satellite Lids.** The brew-thru lid locks to protect against spills while retaining temperature.

**Automatic Water Bypass.** Assures the highest quality coffee even in soft water regions.

**Sight Glass.** All 1 gallon satellite containers have front mounted sight glass.

**Satellite Container with Double Wall Insulation.** Preserves the freshness and temperature of coffee.

**Solid State with Relay Output Liquid Level Control.** Reliable and consistent water delivery each time you brew.

**Versatility.** Automatically brews 12 or 24 cups of coffee. Able to use either 1 gallon stainless steel satellite container or a decanter.

**Self-Regulating Warmers.** Warmer plates recognize the amount of coffee in the container and automatically adjust the heat so the coffee is kept at the perfect serving temperature. Coffee will keep its fresh brewed flavor much longer.

**Hot Water Faucet.** Separate hot water faucet system allows operator to draw hot water while machine is brewing coffee without short potting the brew cycle.

## ACCESSORIES/OPTIONS

**Additional Stainless Steel Containers**  
(1 Gallon)  
#1032069

**Warming Stove** (120v)  
#1810524

**Flowmeter** (insures against short potting in areas where water pressure varies)  
#9906500

**Natural Filter Paper** (no bleaching chemicals)  
#9906530
